DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2, 4, 8, 11, 15, and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Hines (U.S. Patent Application Publication No. 2005/0246682).

Regarding claim 1, Hines teaches a communication system comprising:

at least one ubiquitous sensor for generating awareness data relating to a user (Fig. 36, 3602);

a context engine for receiving and processing said awareness data to determine the user's current context for the purpose of event handling (Fig. 36, 3608);

a policy engine for receiving and relating at least one pertinent evidential indicator of an incoming event from a caller to said user's current context and in response selecting a preferred event handling feature; and a delivery agent for executing said preferred event handling feature (see paragraph [0468]).

Regarding claim 2, Hines further teaches the communication system wherein said context engine further comprises an algorithm for processing said awareness data into availability information and applying said availability information to said policy engine as tuple space assertions (see paragraph [0137]).

Regarding claims 4, 8, 11, 15 and 17, see Figs. 56-60.

Allowable Subject Matter

3. Claims 3, 5-7, 10, 12-14, 16 and 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
